Ex-Senator Platt will now have to fight the Chamber of Commerce if he continues his war against Mayor Strong. Heretofore New York's famous representative business organization has kept out of the political conflict, but to-day it was concluded that the city's welfare ing. Senator Blanchard has held Senawith a petition from well-known busi-ness men, Chairman Alexander E. Orr sent out a call for the Chamber to meet iff bill.

It is stated that the object of the meeting is to petition the Legislature to pass the Police Magistrates bill submitted by the Committee of Seventy.

The significance of this is understood by no one better than by ex-Senator Platt himself, and his feelings on the matter are indicated by the fact that when told of the proposed meeting he answered in a very sarcastic way:

"Of course, the Legislature has to do everything the Chamber of Commerce asks."

That was all he would say, but the manner in which he said it was more suggestive than a whole pamphlet from his literary bureau.

Among those who signed the cail for the meeting of the Chamber were Charles Stewart Smith, Cornelius N. Jesup, R. M. Gallaway and Henry Hentz. Smith, Bliss and Schwah are a formidable trio in politics themselves, and it is understood that they are back of the movement to have the Chamber of Commerce come to Mayor Strong's support. The Police Magistrates bill as it stands, gives Mayor Strong's support. The Police Magistrates bill as it stands, gives Mayor Strong he right to Albany about a month ago and has been in a pigeon hole since.

It has not even been caucussed by the Republican majority, and the Platt men have declared they would sconer have the present corps of Police Justices than the strong of the Chamber of the present corps of Police Justices than the pass a bill giving Mayor Strong more patronage.

They have discussed substitute measures freely, and one of the plans suggested was that the police magistrates bill as it states the pass are to be defeated. They are both against it because it is backed by the Pennsylvania Raliroad.

The latter height is practicable, but the former would almost preclude its feet above the water instead of to feet, which the Pennsylvania Raliroad wanis.

pass a bill giving Mayor Strong more patronage.

They have discussed substitute measures freely, and one of the plans suggested was that the police magistrates be elected. The bill has been regarded ty Platt as a whip with which to drivy Col. Strong into line, and politicians today were wondering if the Tloga Chief would submit or endeavor to fight the Chamber of Commerce along with the LAXA and other reform organizations.

The following letter was sent on Saturday requesting the meeting to be called:

called:

New York, Feb. 23, 1885.

Alexander E Orr President, Chamber of Commerce, New York City.

Dear Sir: The undersigned, believing the administration of the lower criminal courts of this city to be a perversion of justice, an oppression of the poor and a scandal to the fair name of this city, respectfully request that you will, at an early day, call r meeting of the Chamber for the purpose of petitioning the Legislutaure to pass without further delay a bill for the removal of Police Justices of this city and the reorganization of that bench of our criminal procedure. Charles Stewart Smith, who was seen at the Chamber of Commerce this afternoon, said in regard to this action:

"What we want is to get these Police Justices out of office as soon as possible, for we believe that they are not fit men to hold such judicial positions.

"As the Power of Ren.cval bill cannot apply to them we will have to legislate the entire court out of existence and then reorganize it if we are to get rid of them, and the only way to do this is to get the bill now before the Legislature passed.

"It was introduced on Jan. 16 least and

to get the bill now before the Legislature passed.
"It was introduced on Jan. 16 last, and has been hanging fire ever since. We now want to see what can be done by means of a petition to the Legislature." President Joseph Larocque, when asked what he thought of a petition to the Legislature to take up the Police Justices bill, replied:
"It's a good plan. What the city most needs now is immediate action both on this and the School bill. They are measures which have no politics in them, and as to their constitutionality there is not a particle of doubt. That matter has been very thoroughly considered.

It is reported that certain banks that were awarded a large proportion of the amount bid for really got as many bonds as they desired, having been given the tip by the syndicate to put in olds for two or three times the sum they actually wished to subscribe for. Hankers are feeling much better over the result of the allotment than brokers. The new bonds were quoted at 4 11-16 per cent. premium in London to-day.

As a result there is a good deal of grumbling, because it appears that people who hoarded gold and applied for bonds got them, while those who could not offer gold were passed over in the matter, of allotment.

It is said that nearly 400 subscibers were notified that they would receive no bonds. Nearly all subscribers for bonds to the amount of \$5,000 or less, were awarded the full amount of their subscription.

It is understood that all of these small bidders had gold on hand with which to pay for the bonds, and gave assurances to the syndicate that they were taking the bonds to keep as an investment, and not for speculation.

One member of the syndicate applied for bonds and informed the syndicate that it was doing so for correspondents. No engagement was made to pay gold for these bonds. The allotment was 10 per cent, to 11 per cent. of the application.

Another subscriber asked for \$1,000,000 bonds and and special of the syndicate and agreed to pay gold for them.
